Power, Luxury, and Versatility

In 1987, Jeep unveiled a true trailblazer - the Grand Wagoneer. This SUV captured hearts with its timeless design and rugged elegance. Nestled beneath its hood, a force awaited: the mighty 360 cubic inch V8 engine, harmonized with an automatic transmission. As an added touch, the Grand Wagoneer offered the convenience of 4-wheel drive capability, allowing drivers to switch between 2-wheel drive and 4-wheel drive for enhanced fuel economy.

Commanding Powertrain

At the heart of the 1987 Grand Wagoneer beat the powerful 360 cubic inch V8 engine. With a displacement of 5.9 liters, this robust power plant delivered exceptional torque and horsepower. Paired with the smooth-shifting automatic transmission, it seamlessly transformed raw power into controlled performance, making every drive an exhilarating experience.

Unleashing Off-Road Dominance

Fuel Efficiency without Compromise

Jeep's innovative 4-wheel drive system allowed drivers to switch to 2-wheel drive mode when maximum traction wasn't necessary. This feature not only provided improved fuel economy during regular driving conditions but also gave drivers the flexibility to adapt to changing road and weather conditions. The Grand Wagoneer delivered power and efficiency without compromise.
