Ford Mustang 289 - 1966

Presentation

Are you ready to own a piece of automotive history? Presenting a pristine 1966 Ford Mustang, an iconic classic with a twist - powered by a brand new 289 cubic inch engine, meticulously crafted by none other than Burgol Racing Technology. This vintage beauty has an awe-inspiring tale that spans from 1964 to 1966, filled with memorable moments and remarkable achievements.

The Story of the 289 Ford Mustang (1964-1966)

In 1964, the Ford Mustang galloped onto the automotive scene, revolutionizing the industry with its sporty design and affordable price tag. The 289 cubic inch V8 engine, introduced later that year, further solidified the Mustang's reputation as a high-performance muscle car. Renowned for its raw power and reliability, the 289 engine became a favorite among driving enthusiasts and racers alike.

Fast forward to 1966, the Mustang had already become an American automotive icon, and the 289 engine remained at the heart of its success. With its advanced engineering and impressive horsepower, this engine earned its place in the hearts of classic car enthusiasts worldwide.

Tour Auto Optic 2000

Amidst this storied history, our 1966 Ford Mustang made its mark on the prestigious Tour Auto Optic 2000 rally, not once but thrice, in 2014, 2015, and 2016. The Tour Auto Optic 2000, a celebrated annual event, is a 5-day rally that weaves its way through picturesque landscapes, historic circuits, and breathtaking routes, testing both the driver's skill and the car's endurance.

Imagine the thrill of piloting this Mustang, feeling the harmony between its vintage charm and the pulse of modern engineering from the Burgol Racing Technology's engine. Our car's legacy at the Tour Auto speaks to its capability and durability, adding an extra layer of allure to this already captivating classic.

Burgol Racing Technology
